

Hello! I'm Collins Omondi.

SOFTWARE DEVELOPER | |

EQUITY STREET, KASARANI - KE

0795315719 | | collinsomondi825@gmail.com

LINKEDIN: @Collins omondi | | GITHUB: Collins145.github.io

OBJECTIVE | |

I am a Web Developer with experience of working on a variety of web development projects. I work on all aspects of the development life cycle, applying my knowledge of OOP and MVC principles. My past work includes building user-focused, dynamic, innovative and functional websites using responsive / adaptive / mobile-first design and development. I have good HTML / CSS / JavaScript knowledge.

KEY SKILLS | |

- Proficient in JavaScript - React
- HTML and CSS
- CMS – Wordpress
- Version Control - Git
- Tailwind / Bootstrap
- Ability to develop and maintain front - end code to a high standard and to agreed timescales
- Ability to review other developers' solutions and code
- Ability to provide clear regular progress updates to managers and stakeholders
- Ability to produce comprehensive documentation
- Able to act as first-line technical support for issues and bugs

SOLOLEARN, 2019 - 2021

Modules covered included, Front-end Development, Server-side Development, Data Structures and Algorithms, Object Oriented Programming, Full Stack Application Development, Human-Computer Interaction and Frameworks.

WORK EXPERIENCE | |

FULLSTACK DEVELOPER

SNOBOLE SOFTWARES, NAIROBI : FEB 2021 TO DATE

My role at this company is to assist with scoping, estimating and testing websites and web-based software for clients. Working as part of a team, I create and develop complete projects. I work closely with the different teams including design, project management and sales to ensure the end result is perfect for the client. My other responsibilities include:

- Diagnosing and fixing bugs
- Scoping out and developing new features in line with a specification and to a deadline
- Providing occasional hardware support
- Making improvements to Interfaces and adding new features

This is an internship role.

WEBSITE REPLICATION

PROJECT - FIVERR HOMEPAGE CLONE

Working on the project as a side project, I was interested in cloning the Fiverr homepage using the latest styling framework - TailwindCss. Other technologies I have used include:

- SplideJs - A simple, minimalist JavaScript Library for animated slides.
- AlpineJs - A reactive, minified JavaScript library that is used for interactive features such as menus and modals.
- Webpack - I used Webpack as a module bundler for my frontend assets with their dependencies to make them usable for the browser.
- Gh-pages - For deploying a frontend static web application.
- Node - Installing the required packages and their dependencies.

HOBBIES AND INTERESTS | |

- Travelling
- Watching Documentaries
- Graphic design
- Nature
